## **Another Year another AGM**

**H**ere we are again, another year gone, another AGM, a celebration for the winners, commiseration to the losers.

Has it been a good season? The weather has been slightly better than usual at least we didn't have all four seasons in an afternoon at Orchill. The usual people won most of the matches and there were the usual complaints about the venues, the weather, the starting times and the state of some of the venues.

There have been some members leaving and some new members joining. If you are one of the former then we as a club are sorry to see you go. If you are a new member then you are welcome to a good club.

There have been some changes and inevitably there will be more, but nonetheless the club goes on.

After the AGM we start the summer season again. Will the same people win? Who knows?

Good luck to all members.

**In this Issue: A Year in a Few Lines**

## ***Comments***

**I**t is difficult to make comments in the days prior to an AGM. I will probably make some remarks during the meeting but here is a preview.

**Foul language**-The use of foul language has been much reduced.

**Noise** – The amount of noise is much reduced.

**General Behaviour**- Is usually very good.

**Litter** – We are doing better in reducing the amount of litter.

As can be seen from the above we, as a club, are doing much better on all fronts and are generally welcome both as a club and as individuals at all the venues that we visit.

***Phil Maude***

## A Year in a Few Lines

### Report Card for 2010 to 2011

Each year I have made some type of report card which has been greeted with much hilarity. Here is ours for the year March 2010 until March 2011.

<b>Fault</b>	<b>Marks</b>	<b>Position</b>	<b>Remarks</b>
Foul Language	6/10	C+	Although all members have tried, frustration has let them down. Could do better!
Litter	9/10	A	This year has seen a remarkable improvement in the amount of litter left behind. There could still be a little improvement
Noise	9/10	A	Although good natured banter still goes on the incessant sound of mobile phones and radios has been almost eradicated. Keep up the good work.
General Behaviour	9/10	A	There has been considerably less wandering around during matches. Resulting in less disturbance for other anglers. Good work

### Comment

This has been a good year and all members have worked hard to make it so. If we carry on in this way we will soon be a premier club.
